Airport Services

2010 Airport Improvements

- Fixed Base Operator Facility
- Airport Entrance Reconstruction
- 6 New Box Hangars and Adjacent Taxi Reconstruction
- Airport Master Plan and ALP Update

A new facility is currently under construction. Construction is scheduled to be complete by the Fall of 2010.

The Davenport Municipal Airport currently hosts 78 Aircraft T-hangars and 2 Executive Style Aircraft Box Hangars. We are in the process of building 6 new Aircraft Hangars that will be approximately 45 ft by 45 ft. These new hangars will be complete in the Fall of 2010. If you are interested in a hangar rental and availability, contact the Airport Manager at (563) 326-7783.

There are 3 Business and Industrial Centers located near the Airport

- Eastern Iowa Industrial Center
- Iowa Research, Commerce and Technology Park
- River Cities Industrial Center

Davenport Municipal Airport

Mission Statement

"The Davenport airport serves as the aviation gateway to Eastern Iowa, Davenport and the greater Quad City area and continually seeks to provide quality cargo and visitor facilities for its general aviation and business customers. The airport also recognizes its role as an integral asset in the growth and support of our local and regional economies and pledges to fully cooperate and assist in the economic development of the region."

Davenport Municipal Airport

9230 Harrison Street, Davenport, IA 52806 563.326.7783 www.cityofdavenportiowa.com/airport

The City of Davenport owns and operates the Davenport Municipal Airport. The airport provides a wide variety of services and activities to the community. You can learn to fly, take a sight-seeing tour, charter a private aircraft, or just bring the family out to watch a plane or helicopter take-off.

The airport is also home to the award winning Quad City Air Show, the Iowa Air National Guard, Civil Air Patrol, Carver Aero, the National Weather Service, and the local Sprint Kart Speedway. We are fortunate to be served by a full service Fixed Base Operator (FBO) and to have T-hangars available for lease with access to self serve fuel.

The airport is key to promoting commerce in the City of Davenport. About 300 corporate jets from around the country arrive each year. In sum, the services and activities provided by the Davenport Municipal Airport support nearly 400 employment opportunities and generate nearly \$20 million in local spending annually.

Davenport Municipal Airport (KDVN) is located at 9230 Harrison Street, Davenport, IA 52806, just 7 miles North of Downtown Davenport

RWY 15/33 5511' x 100', Concrete (15/33 is an ILS Runway)

RWY 3/21 4001' x 100', Concrete ELEVATION 753
